INTRODUCTION

We aim to supplying high quality products and services and fully dedicated to creating strong relationship with our customers ,and suppliers. Our qualified and highly skilled staff has contributed wholeheartedly in current transformaiton process. Our client's unwavering trust in our products and services has encouraged us to continuously invest in product research and development and upgrading manufacturing unit.

We are licensed contractors and manufacturers of all types of building structures , Car carriers, trailers , dumpers, fuel tanks, refregirated boxes and spares. Our carefully selected cutting edge machines enabling us to reduce lead times resulting in speed, precision, customization and efficiency, thereby enhancing our productivity to manifolds.

Aldheeshi Contracting Ltd company , established since 2003 has under gone significant development and today its standalone hi-tech modern manufacturing facility equipped with latest automated machines has enhanced production capacity and quality standard to such a level which can not only fulfill stringent quality standard required by commercial and government sectors but also capable to build custom solutions .

CHAIRMAN

We truly believe long lasting success lies in building long term relations with suppliers, clients, internal and external stakeholders, and communities around us where we work. Combination of partnership approach coupled with cutting-edge technical excellence is making us a growing force to reckon with. Our commitment and dedication will continue to serve our customers beyond their expectations through our deep rooted relations with our suppliers. We look forward for mutual success and prosperity

Osama Aldheeshi

VISION & MISSION

Vision

Develop, maintain and enhance strategic business relations with - . leading organization locally and internationally Continued develop and upgrade manufacturing unit to meet and - exceed growing needs of our customers through innovative custom solutions

Mission

Enhance customer base through high quality innovative products solutions. -Meet and exceed customer satisfaction -Continue develop and update staff skills through hand-on , in house training and seminars. -Deliver reliable aftersales service to our customers

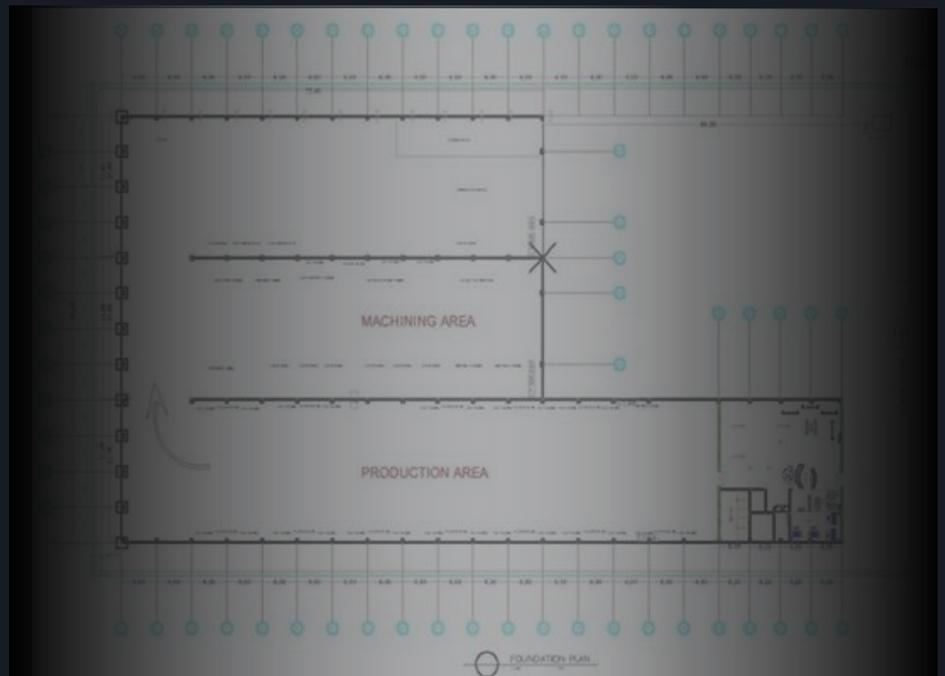

رؤية
VISION
2030

MANUFACTURING UNIT

Current manufacturing facility located in Alkharj industrial area comprises of 10500 sq mtr, with a annual production capacity of more than 350 trailers . High tech machines . has been installed to meet future growing business needs Production lines facilitate systematic flow of units across the floor enabling high productivity .Automatic CNC machines has substantially reduced production lead times , similarly our paint chamber is quipped with modern tools and equipment to help expedite paint .process

MACHINES & EQUIPMENT

Power System

01 megawatt Power line

242 KVA generator

Machine	Qty
CNC Plasma machine (3200mm X 12000mm)	1
Hand Plasma machine	3
CNC Lathe machine (CTX 450 eco line)	1
CNC Milling machine (NMV106A FANUC) Size 1120x600	1
CNC Press Brake (120 ton)	1
CNC Shearing (16 mm thickness)	1
BendSaw (Cuteral PAR350 m)	1
Punching Machine -90 tons	1
Zib Cranes 2 ton/1 ton	14
Overhead cranes 10 ton/5 ton	3
Sheet rolling machine 8mm	1
Mechanical Press 20/40/80/120 ton	5
Mig Welding machine- (1GBT-500)	30
Arc Welding plant	3
Air compressor (rotary screw)	2
Paint Booth 25x5.7x5.4(mtr)	1
Gas cutter	8
Fork Lift-3 to 7 Ton	2

MACHINES & EQUIPMENT

CNC Plasma Machine

Specifications

work width 3200 mm
 Total width 12000 mm
 Speed 10000 mm/min
 Cutting quality ENISO9013
 Accuracy DINEN28206

CNC Lathe Machine

Specifications

15" SLIMline with Operate 4.5 on SIEMENS 840D solutionline
 15" SLIMline® with HEIDENHAIN CNC PILOT 640
 10.4" TFT-Display with MAPPS IV with MITSUBISHI VDI 40 servo turret* with 12 driven tool stations
 Large bar capacity of \varnothing 65 mm / \varnothing 75 mm
 bar capacity: \varnothing 65 mm (optionally \varnothing 75 mm)
 torque: 370 / 280 Nm (40 / 100 % DC)
 Drive output: 17.5 / 12.5 kW (40 / 100 % DC)

CNC MILLING MACHINE

CNC Milling Machine

Specifications

Model NMV106A (FANUC)
 Spindle Speed (opt.) rpm 12,000 (8,000 / 10,000 Gearbox)
 Max. Spindle Motor Power (opt.) kW 18.5 (15 / 15)
 Spindle Taper BBT40
 Distance Between Spindle Nose & Table Top (opt.)mm 80-680 (330-930)
 Table Size mm 1,120 x 600
 No. T-slots x Size x Pitch mm 5 x 18 x 100
 Max. Load on Table kg 800
 Rapid Feedrate (X/Y/Z) m/min. 36/36/24

CNC PressBrake/Bending machine

Specifications • Strong rigid torsion bar design, ensuring the synchronous movement of ram stroke • Built-in mechanical stop, ensuring an accurate positioning of ram stroke • E200P CNC, with high performance-price ratio, reliable performance and easy operation • E200P controls X, Y axes to achieve high production efficiency and parts of precision • Quick clamps is for easy operation of removing and changing upper punch tools • Servo motor is used to get a rapid and accurate positioning • CNC controller DA-41

CNC Shearing Machine

Specifications

Control system :E200 CNC

Max cutting thickness: 16mm:

Max cutting length: 4000mm

Punching Machine

Specifications :

Model: 90 Tons

plate shearing, section shearing, punching and V notching.

Applicable in industries of shipbuilding, electric power, bridge, automobiles, elevator, metal structure and other metal fabrication field.

Mechanical Press Machine

Specifications

Gears are made of steel cast or fabricated. Teeth are generated by precision hobbing machine. Table and Ram are made of high grade heavy duty cast iron & properly seasoned, Perfectly aligned, to each other to obtain high accuracy & precision press operation.

Cutral Bandsaw Machine

Specifications

Cutral PAR350 M Fully Automatic
Material Feeding System
Material clamping system
Miter fixing
Miter cutting

Spray Paint Booth

Specifications

The technical parameter of spraying booth

Efficiency space of spraying booth: 25×5.7×5.4 (m)

Capacity: 72000 m³h

The filter area of spraying booth: 65 m²

Mig Welding Machine

Specifications

IGBT inverter.

Wide range of supply voltage.

Welding voltage and welding current can be preset and displayed digitally.

Input Voltage: 380V, 3 Ph, 60HZ.

Input Current: 80A

Overhead & Zip Crane

Specifications

Double Gridher Care 10Ton.

Double Gridher Crane 5Ton.

Jib Crane 2 Ton.

Jib Crane 1 Ton.

TECHNICAL STAFF

Highly qualified and trained staff is fully capable to develop, design and manufacture products as per customer specifications fulfilling quality standards.

Job Title	No. of Staff
Mechanical Engr	1
Mechanical Designer	1
CNC Plasma Machine operators	1
CNC Lathe Machine Operators	1
CNC Milling Machine Operators	1
CNC Press Brake Operator	1
CNC Shearing Machine Operator	1
CNC Machine Operators (multitask)	2
Bandsaw Machine Operator	2
Punching Machine Operator	1
Forklift Operator	1
Over Head Crane Operators	1
Mechanical Press Operators	1
Mig Welding Machine Operators	10
Electrician	2
Painters	2
Helpers	10
Fabricators	8
Total	47

FACTORY PRODUCTION CAPACITY

yearly prod capacity

AFTERSALES SERVICE

Staff motivation and appreciation lies inside DNA of company. highly dedicated and skilled staff ensure customer satisfaction and on time delivery.

Our customers are our business partners , therefore our relations does not end with products sales rather we are available to serve and support them 24/7.

All spares stock is maintained in sufficient quantities to ensure timely availability of stock at all the times.

Our technical staff ensures repair /maintenance /troubleshooting services whenever customer reports any problem.

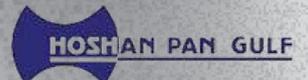

CLIENTS

Some of our major customers who has placed trust in our products and services and their feedback has helped develop our product quality standards .We feel pride being their first choice.
